President's Message

As NATA Holding, with our knowledge and experience of nearly half a century, we have taken the right moves in business life by following the dynamics of technology and the developing world. Doing the right things in the right ways has always brought us success. We have made our dreams come true with our strategies, with the idea of being better by constantly improving ourselves in every success we have. We are growing day by day with our foresight and successful investments. We are growing day by day with our foresight and successful investments, and we experience the honor of realizing prestigious projects at home and abroad.

As NATA Holding, we get our strength from our family. Our business partners, suppliers and all our employees build this strong family. With this perspective, we desire to carry our corporate culture to the future with our traditional structure and prestige. Our idea about winning is "We grow not by winning, but by sharing". With our companies and brands, we always follow the dynamics of life and realize living projects as well as meeting the needs. We will continue to realize all the projects that we will produce with our qualified service understanding, by providing the most rational solution suggestions and absolute customer satisfaction.

My life's experience has shown how important work is. Working is the best way to overcome anything. It is important to remember that your past is the guide to your future. On this occasion, I commemorate my father, Hasan TANIK, with mercy, who shed light on my path, who contributed greatly to what we are today, and whose support and strength I feel within me and I commemorate the most important legacy he left us with the words "My son, the greatest wealth in this world is reputation". My only goal is to maintain this reputation with my children and my colleagues forever.

Regards
Namık Tanık

Corporate Profile

NATA Holding; Concrete/BA is a group of companies operating in pipes, infrastructure elements, prefabricated facilities, energy, construction, mining, project development and real estate investment, domestic and international contracting services and tourism sectors.

NATA Holding, which has become a group company since 1995, works with the principle of being a company that is sensitive to occupational health and safety, respectful to the environment, making a difference with its improvement and development services, reliable, providing customer satisfaction with its competitive advantage, by adopting a total quality approach in all its projects.

NATA Holding, which is among the top 250 construction companies in the world, employs 523 employees in Turkey and 5500 employees abroad, within the group, which considers that the only condition for being effective and efficient is the correct use of human resources. NATA Holding, which succeeded in making our name known abroad by completing 180 highway bridges in 5 different states of Turkmenistan in 500 days, continues to sign different projects with its experience of nearly half a century.

NATA Holding continues to grow day by day in line with the principles of originality, honesty and merit, together with all its employees. NATA Holding continues its role as the flag carrier in the sector, being aware of the responsibilities it brings behind its power. As in the past, today and tomorrow, it strives to maintain the principles to which it adheres to the end. Behind the trust of business partners in NATA Holding is this trust principle, which comes from its past.
